The INTER PROJECT is a guide to implement intercultural education in schools by supporting them in the implementation of an intercultural approach, fostering reflection on cultural diversity and providing a practical tool for initial and in-service training of teachers.

The project will focus on developing, using, and evaluating a practical guide which will facilitate analysis, implementation and improvement of intercultural education in schools.

The guide will be available on different formats to be used in face to face and CDL learning environments: Paper edition, CD-Rom, Web CT version (in English); Electronic version on Web Site.

The INTER Project will be carried out in three years:

1) To map out cultural diversity in schools within a European context, to assess educational practices and policies in relation to addressing diversity, to exemplify the intercultural approach in education,

2) To prepare and elaborate the guide,

3) To apply the guide as a training tool in the participating institutions, adjusting it to their characteristics (CDL and face to face) and target groups. These will be teacher trainers and in-service teachers/school staff undertaking continuing education in the participating institutions, who will be able to use the guide in their work.
