Manual matching for not matched entities

Changing the data fields

You can also manually enter the city or identifier for better matching accuracy

The screenshot displays the Orbis Batch Search Matching interface. At the top, there is a header bar with four input fields: 'GOERTEK INC.', 'Weifang', 'China', and '300300FEFFS8B'. A blue arrow points from the text 'You can also manually enter the city or identifier for better matching accuracy' to the 'Weifang' field, and another blue arrow points to the '300300FEFFS8B' field. To the right of these fields is a 'Search again' button. Below the header bar, there is a table with three rows of results. The first row is selected with a radio button. The table columns correspond to the fields in the header bar.
