### Access conditions and criteria for selection and ranking

#### Specific conditions to access the cycle of studies

The following may apply for this cycle of studies:

Holders of the Licenciatura in Engineering Sciences - Mining and Geo-Environmental Engineering from FEUP.

Holders of a first-cycle degree in engineering, or legal equivalent or of a first-cycle degree in engineering structured in accordance with the Bologna Process and deemed adequate by the scientific committee of the cycle of studies.

Holders of academic, scientific and professional curricula in engineering recognized as attesting to their ability to carry out the cycle of studies by the corresponding scientific committee.

Criteria and sub-criteria for selection and ranking of applicants	
1. Degree of adequacy of previous studies assessed by the number of adequate credits (credits in CU that match the scientific fields of the Licenciatura in Engineering Sciences - Mining and Geo-Environmental Engineering - LCE-EMG), with 0% corresponding to the minimum of 162 ECTS and 30% corresponding to the maximum of 180 ECTS, in a linear relation.	30%
2. Academic grade calculated by the weighted average of grades in ECTS considered adequate (credits in CU that match the scientific fields of this cycle of studies and of the preceding CS, the LCE-EMG), with 0% corresponding to the minimum grade of 10/20 and 50% to the maximum grade 20/20, in a linear relation.	50%
3. Professional career assessed by the number of years in the practice of a relevant profession, including internships, up to a maximum of 7 years, with 2% attributed per year, or 3% in the case of relevant roles or responsibilities held. The total may not exceed 20%.	20%
Obs.: In the 1st and 2nd phases, only applicants with a ranking grade equal to, or higher than, 140 (on a scale from 0 to 200) will be admitted.	

### Applicants tie-breaking criterion (it can be the classification obtained on some of the elements from the previous table)

Priority to the best grade obtained in criterion 2, followed by the highest number of ECTS considered adequate for the purposes of criterion 2.

If a tie persists, the tie-breaking criterion will be an interview\* to assess, among other factors, the applicant's soft skills and motivation.

#### Observations of Annex 1

\* The interview will be scheduled by e-mail sent to the e-mail address indicated in the application.
