Conference proceedings

New Realities, Mobile Systems and Applications

Proceedings of the 14th IMCL Conference

Editors: ([view affiliations](#)) Michael E. Auer, Thrasyvoulos Tsiatsos

Involves proceedings of the 14th International Conference on Interactive Mobile Communication Technologies and Learning

Covers all aspects of mobile learning as well as the emergence of mobile communication technologies

Provides a forum for education and knowledge transfer to encourage the study of mobile applications

About this book

This book devotes to new approaches in interactive mobile technologies with a focus on learning. Interactive mobile technologies are today the core of many—if not all—fields of society. Not only the younger generation of students expects a mobile working and learning environment. And nearly daily new ideas, technologies and solutions boost this trend.

To discuss and assess the trends in the interactive mobile field are the aims connected with the 14th International Conference on Interactive Mobile Communication, Technologies and Learning (IMCL2021), which was held online from 4 to 5 November 2021.

Since its beginning in 2006, this conference is devoted to new approaches in interactive mobile technologies with a focus on learning. Nowadays, the IMCL conferences are a forum of the exchange of new research results and relevant trends as well as the exchange of experiences and examples of good practice.

Interested readership includes policy makers, academics, educators, researchers in pedagogy and learning theory, school teachers, learning Industry, further education lecturers, etc.
