**Hygrothermal Behavior, Building Pathology and Durability**

Series: Building Pathology and Rehabilitation

- ▶ Includes a set of new developments in the field of building physics and hygrothermal behavior
- ▶ Presents a new durability approach for historical and old buildings
- ▶ Reviews the current state of knowledge

The main purpose of this book, Hygrothermal, Building Pathology and Durability, is to provide a collection of recent research works to contribute to the systematization and dissemination of knowledge related to construction pathology, hygrothermal behaviour of buildings, durability and diagnostic techniques and, simultaneously, to show the most recent advances in this domain. It includes a set of new developments in the field of building physics and hygrothermal behaviour, durability approach for historical and old buildings and building pathology vs. durability. The book is divided in several chapters that are a resume of the current state of knowledge for benefit of professional colleagues, scientists, students, practitioners, lecturers and other interested parties to network.
