- **Leading to a “Doutor” (Doctor) degree** | The third cycle of studies includes the production of an original thesis, specifically written for this purpose and suitable to the field of knowledge or expertise. Enrolment | An act, subsequent to registration, that provides the student with the opportunity to attend certain course units of a programme or cycle of studies.

Precedence | In the context of recognition of Higher Education academic degrees, it refers to the situations in which a preceding decision has been taken regarding an identical academic degree or diploma.

Readmission | An act through which a student enrolls in the same institution and registers in the same course or in a subsequent course after interrupting his/her studies at a higher education institution/course pair. It is not subject to quantitative limitations. The following students may apply for readmission in an institution/course pair:

- a) Students who were registered and enrolled in that institution/course pair or in a pair that preceded it.
- b) Students who were not enrolled in that institution/course pair in the academic year prior to the one they wish to enter.

Restriction on registration (“Prescrição”) | Loss of enrolment due to repeated failure, according to Law 37/2003 and the regulation relative to restriction on registration at U.Porto.

Recognition of Higher Education academic degrees and diplomas awarded by Foreign Higher Education Institutions (according to Decree-Law no. 66/2018, of 16 August):

- **Automatic Recognition** | An act where a foreign higher education degree or diploma can be generically recognised. - **Level Recognition** | An act where a foreign higher education degree or diploma can be individually recognized by comparability, when its level corresponds to a Portuguese academic degree or diploma in higher education. The request for the recognition of a level is submitted to a public Higher Education Institution able to award the degree or diploma in the same field of study. It is subject to reasoned deliberation by the jury when no preceding decision has been taken regarding an identical academic degree or diploma.
- **Specific Recognition** | An act which enables the recognition of a foreign higher education degree or diploma that is identical to a Portuguese academic degree or diploma in higher education, in a case-by-case analysis of the level, duration, and course contents, in a specific field of study, branch of knowledge or specialisation. It is requested to a public Higher Education Institution, which is able to check the degree or diploma in the same field of study. It is subject to reasoned deliberation by the jury.
