

# U-Multirank 2015

<http://www.umultirank.org/>

Na edição de 2015 do U-Multirank foram disponibilizados 17 “readymade rankings”:

1. Readymade Research and Research Linkages Ranking.....	2
2. Readymade Economic Involvement Ranking.....	4
3. Readymade Teaching & Learning Rankings.....	7
3.1 Business Studies Programmes.....	7
3.2 Computer Science Programmes.....	9
3.3 Electrical Engineering Programmes .....	12
3.4 Mechanical Engineering Programmes .....	14
3.5 Medicine Programmes.....	16
3.6 Physics Programmes.....	18
3.7 Psychology Programmes.....	20
4. Readymade International Orientation Rankings.....	22
4.1 Institutional .....	22
4.2 Business Studies .....	23
4.3 Computer Science .....	24
4.4 Electrical Engineering.....	25
4.5 Mechanical Engineering .....	26
4.6 Medicine .....	27
4.7 Physics .....	28
4.8 Psychology .....	29

Em cada um, identificaram-se as posições das Universidades portuguesas.

## 1. Readymade Research and Research Linkages Ranking

“This readymade ranking compares selected U-Multirank institutions in terms of seven different bibliometric performance indicators in the areas of research and research linkages.

[http://www.multirank.eu/fileadmin/downloads/readymades/Rankings\\_Description\\_Institutional\\_Research\\_Research\\_Linkages\\_UMR\\_2015.pdf](http://www.multirank.eu/fileadmin/downloads/readymades/Rankings_Description_Institutional_Research_Research_Linkages_UMR_2015.pdf)

[...]

**Citation rate** - The average number of times that the university's research publications (over the period 2008-2011) get cited in other research, adjusted (normalized) at the global level to take into account differences in publication years and to allow for differences i

**Research publications (absolute numbers)** - The number of research publications (indexed in the Web of Science database), where at least one author is affiliated to the university.

**Research publications (size-normalised)** - The number of research publications (indexed in the Web of Science database), where at least one author is affiliated to the university (relative to the number of students).

**Top cited publications** - The proportion of the university's research publications that, compared to other publications in the same field and in the same year, belong to the top 10% most frequently cited.

**Co-publications with industrial partners** - The percentage of all the university's research publications that list an author affiliate with an address that refers to a business enterprise or a private sector R&D unit.

**International joint publications** - The percentage of the university's research publications that list at least one affiliate author's address in another country.

**Regional joint publications** - The percentage of the university's research publications that list at least one co-author with an affiliate address in the same region (within a distance of 50 km).<sup>1</sup>

Total: 1086 Universidades

A (Very good) ; B (Good); C (Average); D (Below average); E (Weak); - Data unavailable; x - Not applicable

## 2. Readymade Economic Involvement Ranking

“This readymade ranking aims to show how selected U-Multirank institutions are performing in terms of ten performance indicators in the areas of knowledge transfer and regional engagement. While it is not possible to produce a definitive list of the world’s “top performing” universities in these areas, U-Multirank shows top performances in different aspects of them.

[http://www.multirank.eu/fileadmin/downloads/readymades/Rankings\\_Description\\_Institutional\\_Economic\\_Involvement\\_UMR\\_2015.pdf](http://www.multirank.eu/fileadmin/downloads/readymades/Rankings_Description_Institutional_Economic_Involvement_UMR_2015.pdf)

[...]

**Co-publications with industrial partners** - The percentage of all the university's research publications that list an author affiliate with an address that refers to a business enterprise or a private sector R&D unit.

**Income from private sources** - Research revenues and knowledge transfer revenues from private sources (incl. not-for profit organisations), excluding tuition fees. Measured in €1,000s using Purchasing Power Parities. Expressed per fte academic staff.

**Patents awarded (absolute numbers)** - The number of patents assigned to (inventors working in) the university (over the period 2001-2010).

**Industry co-patents** - The percentage of the number of patents assigned to (inventors working in ) the university over the period 2001-2010, which were co-applied with at least 1 applicant from the industry.

**Spin-offs** - The number of spin-offs (i.e. firms established on the basis of a formal knowledge transfer arrangement between the institution and the firm) recently created by the institution (per 1000 fte academic staff)

**Publications cited in patents** - The percentage of the university's research publications that were mentioned in the reference list of at least one international patent (as included in the PATSTAT database).

**Income from continuous professional development** - The percentage of the university's total revenues that is generated from activities delivering Continuous Professional Development courses and training.

**Bachelor graduates working in the region** - The percentage of bachelor graduates who found their first job (after graduation) in the region where the university is located.

**Master graduates working in the region** - The percentage of masters graduates who found their first job (after graduation) in the region where the university is located.

**Student internships in the region** - Out of all the university's students who did an internship, the percentage where the internship was with a company or organisation located in the region.

**Regional joint publications** - The percentage of the university's research publications that list at least one co-author with an affiliate address in the same region (within a distance of 50 km). <sup>2</sup>

### 3. Readymade Teaching & Learning Rankings

#### 3.1 Business Studies Programmes

“This readymade ranking aims to show how selected U-Multirank institutions are performing in terms of eight performance indicators on teaching and learning. While it is not possible to produce a definitive list of the world’s “top performing” universities in terms of teaching, U-Multirank shows top performances in different aspects of teaching and learning, including the assessment of their learning experience by the students of the institutions.

[http://www.multirank.eu/fileadmin/downloads/readymades/Rankings\\_Description\\_Fieldbase\\_Teaching\\_Learning\\_Business\\_Studies\\_UMR\\_2015.pdf](http://www.multirank.eu/fileadmin/downloads/readymades/Rankings_Description_Fieldbase_Teaching_Learning_Business_Studies_UMR_2015.pdf)

[...]

**“Graduating on time (masters)”** - The percentage of graduates that graduated within the time expected (normative time) for their masters programme.

**Academic staff with doctorates** - The percentage of academic staff holding a doctorate (PhD or equivalent).

**Contact with work environment (masters)** - A composite measure representing at bachelor level: (1) the inclusion of internships/phases in work; and (2) the percentage of students doing an internship; and (3) teaching by practitioners from outside university departments.

**Overall learning experience** - An assessment of the quality of the overall learning experience, based on a survey of the students

**Quality of courses & teaching** - An assessment of the quality of teaching provision, based on a student satisfaction survey.

**Contact with teachers** - An assessment of the feedback given by teachers, based on a student satisfaction survey.

**International orientation of master programmes** - A composite measure taking into account (1) the existence of joint/dual degree programmes; (2) the inclusion of study periods abroad; (3) the percentage of international (degree and exchange) students; and (4) the percentage of international academic staff.

**Opportunities to study abroad** - An assessment of the opportunities for studying abroad, based on a survey of the students”<sup>3</sup>

[...]

**Student-staff ratio** - The number of students (headcount) per member of the academic staff (headcount).

**Academic staff with doctorates** - The percentage of academic staff holding a doctorate (PhD or equivalent).

**Innovative forms of assessment** - The percentage of examinations (in medical doctor training programmes) which use innovative forms of assessment (assessment of practical work by faculty and structured clinical cases).

**Overall learning experience** - An assessment of the quality of the overall learning experience, based on a survey of the students.

**Quality of courses & teaching** - An assessment of the quality of teaching provision, based on a student satisfaction survey.

**Linking clinical/preclinical teaching** - The integration of pre-clinical/theoretical and clinical courses, based on a student satisfaction survey

**International orientation of master programmes** - A composite measure taking into account (1) the existence of joint/dual degree programmes; (2) the inclusion of study periods abroad; (3) the percentage of international (degree and exchange) students; and (4) the percentage of international academic staff

**Opportunities to study abroad** - An assessment of the opportunities for studying abroad, based on a survey of the students.”<sup>7</sup>

### 3.6 Physics Programmes

“This readymade ranking aims to show how selected U-Multirank institutions are performing in terms of eight performance indicators on teaching and learning. While it is not possible to produce a definitive list of the world’s “top performing” universities in terms of teaching, U-Multirank shows top performances in different aspects of teaching and learning, including the assessment of their learning experience by the students of the institutions.

[http://www.multirank.eu/fileadmin/downloads/readymades/Rankings\\_Description\\_Fieldbase\\_Teaching\\_Learning\\_Physics\\_UMR\\_2015.pdf](http://www.multirank.eu/fileadmin/downloads/readymades/Rankings_Description_Fieldbase_Teaching_Learning_Physics_UMR_2015.pdf)

[...]

**Student-staff ratio** - The number of students (headcount) per member of the academic staff (headcount).

**Academic staff with doctorates** - The percentage of academic staff holding a doctorate (PhD or equivalent).

**Contact with work environment (masters)** - A composite measure representing at bachelor level: (1) the inclusion of internships/phases in work; and (2) the percentage of students doing an internship; and (3) teaching by practitioners from outside university departments.

**Overall learning experience** - An assessment of the quality of the overall learning experience, based on a survey of the students.

**Quality of courses & teaching** - An assessment of the quality of teaching provision, based on a student satisfaction survey.

**Laboratory facilities** - An assessment of the quality of laboratories available to students, based on a student satisfaction survey.

**International orientation of master programmes** - A composite measure taking into account (1) the existence of joint/dual degree programmes; (2) the inclusion of study periods abroad; (3) the percentage of international (degree and exchange) students; and (4) the percentage of international academic staff

**Opportunities to study abroad** - An assessment of the opportunities for studying abroad, based on a survey of the students.”<sup>8</sup>

## 4. Readymade International Orientation Rankings

### 4.1 Institutional

"This readymade ranking aims to show how selected U-Multirank institutions are performing in terms of four performance indicators of international orientation. While it is not possible to produce a definitive list of the world's "top performing" universities in terms of international orientation, U-Multirank shows top performances in different aspects of internationalisation.

[http://www.multirank.eu/fileadmin/downloads/readymades/Rankings\\_Description\\_Institutional\\_International\\_Orientation\\_UMR\\_2015.pdf](http://www.multirank.eu/fileadmin/downloads/readymades/Rankings_Description_Institutional_International_Orientation_UMR_2015.pdf)

[...]

**Student mobility** - A composite of international incoming exchange students, outgoing exchange students and students in international joint degree programmes.

**International academic staff** - The percentage of academic staff (on a headcount basis) with foreign citizenship.

**International joint publications** - The percentage of the university's research publications that list at least one affiliate author's address in another country.

**International doctorate degrees** - The percentage of doctorate degrees that are awarded to international doctorate candidates.<sup>10</sup>
